To Whom It May Concern

Dear Sir/ Madam

**RE: Training N3 Water Treatment practice and Waste Water treatment practice**

The above refers.

Overberg Water is currently doing intensive training in various fields in the water sector. This includes NQF 2, NQF 3 and NQF 4 learnerships. In September 2011 a training program in N3 Water treatment practice and N3 Waste Water treatment practice were rolled out. There are currently 32 students in this program. Various municipalities in the Western Cape sent their personnel for the training and paid for it themselves. The cost for the training is R 8 000 per subject. Contact sessions of 3 days per month takes place for 5 months. The students write an external exam at Boland College where after the department of education will award certificates to the successful candidates.

Overberg Water realizes the urgency of a well trained Process Controller, thus there is a continuous attempt to get funding in order to ensure that the water sector get the maximum advantage. **It is with great excitement that Overberg Water can announce that a donator will carry the cost for 30 Process Controllers in order to train them in N3 Water treatment practice and N3 Waste Water treatment practice.**

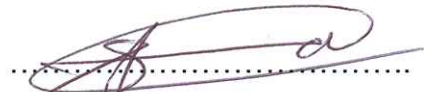

The training will take place in Caledon at Overberg Water's training centre. Nominations from your offices for this training can now be sent to reach us on or before 15 January 2012. This can be sent to [bedryfadmin@overbergwater.co.za](mailto:bedryfadmin@overbergwater.co.za) of 028 2141297 for the attention of Ms VM Theunissen-Daries. The qualifications that the students must have in order to qualify for the training is as follows:

1. Grade 12 with at least 1 year's relevant experience
2. Grade 10 with at least 3 years' relevant experience

The cost excludes transport, accommodation and meals.

In case of any further inquiries, please do not hesitate to contact Mr Sydney Armoed at [bedryf@overbergwater.co.za](mailto:bedryf@overbergwater.co.za) of 028 2143509 or 082 3399935.

Regards,

Sydney Armoed
